Continue to historic Simon's Town, a village with charming Victorian architecture, a naval base, and

a large penguin colony at beautiful Boulders Beach. African Penguins inhabit 27 different locations on the continent; as most of these sites are inshore islands, this is one of the few places to view the penguins on the mainland. The penguins are protected by the non-profit Southern African Foundation for the Conservation of Coastal Birds (SANCCOB) to ensure that their populations remain strong. Wooden walkways allow visitors to observe the penguins in their natural habitat. Return to the hotel for dinner. *Overnight at Radisson Blu Waterfront. (BLD)*

great botanical gardens of the world. It showcases a wide variety of the unique plant life of the Cape Flora, also known as fynbos, which includes sugar bushes, pincushions, and heaths. Plants from all the diverse regions and biomes of southern Africa are also grown at Kirstenbosch, including a near-complete collection of cycads. Over 125 species of birds have been recorded here, including sugarbirds, sunbirds, and a resident Spotted Eagle-Owl. Butterflies, mammals, and amphibians also make their home here, and the critically endangered Table Mountain ghost frog has been recorded at this site. Next, visit SANCCOB's seabird rehabilitation center. Dinner is on own to take advantage of leisure time at the Victoria & Alfred Waterfront. *Overnight at Radisson Blu Waterfront. (BL)*
